

# 1925

## ***B17 Champion Sprinter***

*The B17 Champion Sprinter was introduced in 1925 and has been in production for over 30 years. Built for mile and half mile events, the Sprinter was the choice of track riders through the 1950's and early 1960's.*

*The limited edition B17 Champion Sprinter in the picture is number 1 of 1925 pieces manufactured at Brooks works in England. Whilst all other Brooks Saddles bare the "Made in England" print on the side of the leather top, the Sprinter is embossed with "Made in Great Britain". This is not a mistake but a faithful reproduction of the original. Until the 1960's in fact all Brooks Saddles were branded in this way.*

*This limited edition Sprinter weights 425 g, much less than the original since its frame is entirely made of titanium. The saddle is 274 mm long and 133 mm wide. The leather top is fixed to the frame with hand hammered copper rivets. The Sprinter is delivered in our special Collection box containing all the necessary to take care of the product: a tensioning spanner, a can of Proofide leather dressing and a cotton cloth to polish the saddle.*

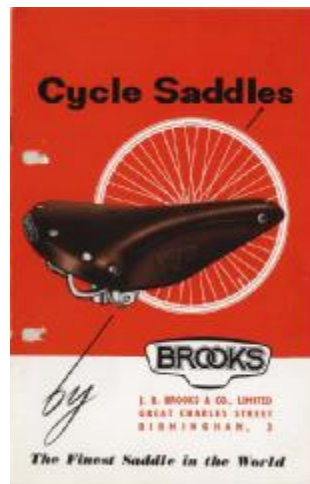

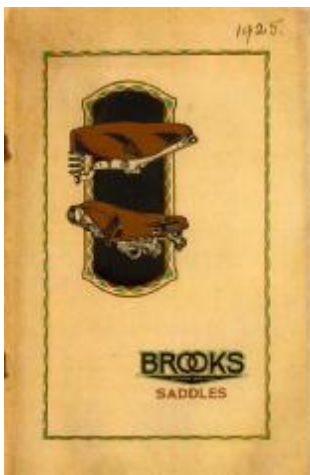

A true collector's item, at its introduction the Sprinter was certainly the narrowest saddle ever built, and probably remains one of the narrowest bicycle saddles ever made. Each B17 Champion Sprinter is numbered on the underside and delivered with a certificate bearing the same number.

The suggested retail price of the Sprinter will be 250 €, a good deal considering that several of our first limited edition Swallow saddles initially sold at 275 € are now being traded on Ebay for over 500 \$.
